

PETERSONS LOOKOUT

WALK 4

Distance	5 km
Duration	3 hours
Grading	Easy

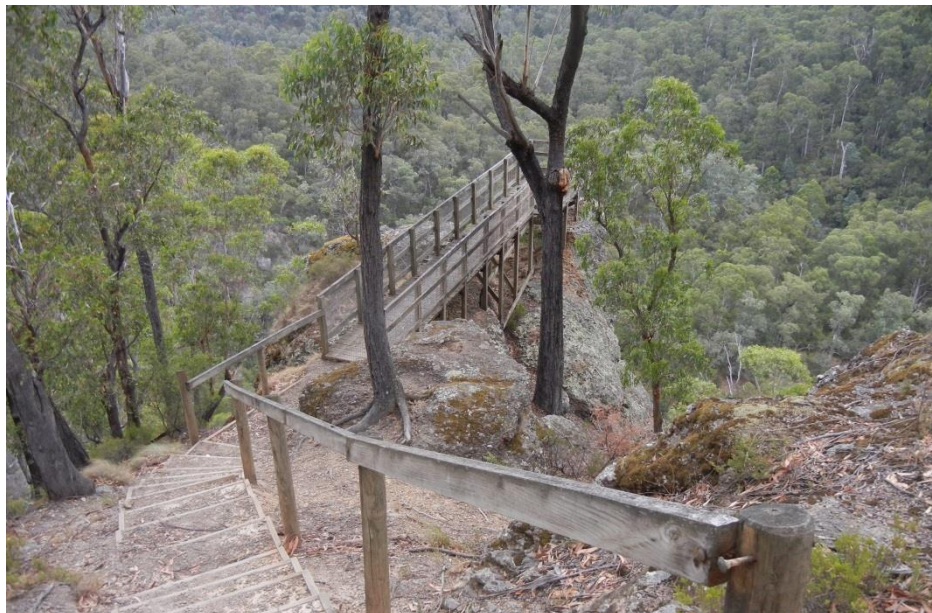

Walk description

This is a delightful short return walk in the eastern section of the Tyers Park. It takes in Petersons Lookout which is perched high above the Tyers River within the Tyers Gorge.

There are impressive views to the south towards the Latrobe Valley and north up the river valley. The conglomerate rock faces at the lookout are a feature of the walk. Peregrine falcons are known to nest near the lookout platforms and wildflowers feature year round. Some of the park was logged around 60 years ago as evidenced by an old timber mill site near the commencement of the walk.

Getting to the start

From Rawson, head south towards Traralgon on the Tyers-Walhalla Road for approximately 20 km. Watch out for a brown coloured sign indicating Petersons Lookout just before the turnoff to W2 track on the right hand (western) side. The beginning of the track is the starting point for the walk.
