

TULLICOUTTY GLEN

WALK 13

Distance	13 km
Duration	6 Hours
Grading	Medium- Hard

Description

Starting from the Mt St Gwinear car park you travel through snow gums, summit Mt St Gwinear, visit the nearby Tullicoutty Glen, Thomson's Run, and Mt St Phillack before returning to the car park.

From the Mt St Gwinear car park travel north-west past the viewing platform to Jeep Track Flat. From here walk over Mt St Gwinear summit and on to the rock shelter which is on the Australian Alps Walking Track. Next we head off track in a westerly direction for 300m to Tullicoutty Glen.

The ephemeral creek and water hole in the Glen freeze in winter and can usually hold a hikers weight. Your Leader may have a tale to tell.

Still off track we head west climbing out of the Glen to the ridge line, head in a north-west direction with Thomson's Run on your right hand side. After about one kilometre you will come to West Tanjil Creek and an old ski trail. At the ski trail turn north-east and after 500m you will re-join the Australian Alps Walking Track. Turning right we follow the trail over the summit of Mt St Phillack. Stay on the Australian Alps Walking Track until you reach the rock shelter, turn left and retrace your path back to the car park.

Getting to the start

Leave Rawson and take the Thomson Valley Road 18km to Mt St Gwinear Road. Take this road 5km to the car park. Start here.

Mt St Phillack - Cairn
