

FedWalks 2022 COVID-19 Policy

Note: This policy is based on current [Department of Health, Victoria](#) advice (dated 22 April 2022) and may change as Health advice is updated.

1. We strongly recommend the wearing of face masks when car-pooling to protect yourself and your other passengers from sharing any current viruses (Covid-19, Flu or cold!).
2. As it is possible to be asymptomatic whilst infected with COVID-19 and to minimise the likelihood of people travelling/attending prior to symptoms developing, we encourage people to undertake a Rapid Antigen Test prior to attending the event.
3. We strongly recommend all participants get a third vaccination booster before attending the event to protect your health, and those you will be in contact with. For more information: <https://www.coronavirus.vic.gov.au/get-vaccinated>
4. If you are feeling unwell or have symptoms* of COVID-19 take care of yourself, self-isolate and test for Covid-19. Follow [Department of Health advice](#).
5. If you are a household or close contact** of someone who has tested positive for COVID-19, follow health advice and monitor for symptoms. Test for COVID-19 daily before participating in the event. <https://www.coronavirus.vic.gov.au/checklist-contacts>
6. If you test positive whilst at the FedWalks 22 event, you must notify the Incident Control Manager or the Coordinator (FedWalks22@gmail.com)) and follow [Department of Health advice](#).
7. The FedWalks22 committee will support you to advise the social contacts** you have spent time with while you were infectious (2 days prior to feeling unwell or testing positive).
8. The FedWalks22 committee will provide general advice to participants of a positive case during the event.
9. The FedWalks22 committee will advise the Department of Health if we have 5 or more positive cases related to this event, via the Covid-19 Outbreak Notification Form.

* Symptoms of COVID-19 include cough, sore throat, shortness of breath, runny nose, or loss or changes in sense of smell or taste

** You are a Household contact if you spent 4 hours or more with someone who has tested positive in their home, or residential setting in the past week. You are a social or workplace contact if you spent more than 15 minutes face-to-face with someone who has COVID-19, or if you spent more than two hours with them in the same indoor space (such as a workplace or a restaurant)

**THANK YOU FOR HELPING US PROVIDE A SAFE ENVIRONMENT FOR ALL
PARTICIPANTS AND VOLUNTEERS 😊**
